Subject: Speaker request for Emergency Preparedness and Hazmat Response Conference

Cecil:

As we discussed, we have been requested to speak at the Emergency Preparedness and Hazmat Response Conference. The request was for an EPA speaker to discuss the Charleston, WV chemical spill. The Southeastern Pennsylvania LEPCs are sponsoring the conference, which is being held October 26-30, 2014 at the Valley Forge Convention Center.

The key Federal conference partner is the Department of Homeland Security/Office of Infrastructure Protection. Bridge Consulting Corp. is the meeting planner/organizer.

Thanks,

Fran
